

## Art & Design Learning Outcomes and Assessment Examples

This list of program learning outcomes and assessment examples from other institutions is provided as reference for MICA faculty to use in thinking about their own outcomes and learning assessment processes. Inclusion in this list is not an endorsement of the outcomes or assessment plans.

As with any list of web-links, over time some of these links will no longer be valid. The office of Educational Planning & Development will verify this list and remove non-working links on a periodic basis. We will also add new examples to this list as we become aware of them.
