

MICA Emergency Guide

As a MICA student, you have access to all MICA services and personnel even when living off-campus. This guide is to help you become more familiar with your campus resources, including who to contact in emergencies after business hours (9am-5pm).

In most situations, Campus Safety can provide more immediate assistance than the response times of Baltimore Police Department. Campus Safety provides first response, first aid, CPR, and AED assistance. When in doubt, call them both!

If there is a situation occurring on campus or in the immediate area that may impact the MICA community alerts will be sent out via:

- MICA's emergency notification system
- Rave Guardian

More information about these systems can be found on the Campus Safety website <https://www.mica.edu/offices-divisions/campus-safety/> under "Programs and Services".

Police/Fire/Ambulance.....911

- medical emergency (loss of blood, injury, loss of consciousness)
- crime victim
