How to get tested for COVID on the MICA campus:

Anyone regularly accessing campus will receive an email confirming testing registration. Check the testing schedule posted on mica.edu/reopen for your designated day and time.

Upon arrival at BBOX, you will have your temperature taken and will be asked questions about COVID-19 symptoms and exposure.

After being checked-in and given necessary materials, you will self-swab your nose while being observed by trained medical staff.

Expected testing turnaround is 48 hrs. Lab results will be sent to the Student Health Center for students and to a designated MICA administrator for staff. You will be able to access test results via a secure patient health portal.

If your test is negative, you will have continued access to campus. If you test positive, you will be contacted with further instructions.

Additional Resources:
- Campus Safety non emergency line: (410) 225-2355.
- Anonymously report COVID-19 protocol noncompliance by using this form.
